Proposals must be no longer than five pages, double-spaced, typed. Answer the following questions in your proposal. Copy the questions and then type your answer below each question.

1. Project Description

- A. Describe your proposed project. What do you envision the final product to be? If it is performance, where will it be performed? If it is a showing of your work, where will you show it? If it is a research paper, what is the topic and how will it be presented? Be as specific as possible.
- B. Describe your proposed process in completing this project. What is your timeline? Complete a calendar for the academic year. If your project involves collaboration, with whom will you work? If you are collaborating with a current student, you must get the approval of your supervisor before including them in your application. Include a time-line/calendar in this section. Do you have to secure the rights to any existing artistic work (script, music, artwork, etc.) that you intend to use in your project?

2. Resource needs

What resources will you require for this project (rehearsal or performance space, materials, equipment etc.) If you intend to use SU facilities, have you checked to make certain that they are available? Present a detailed budget in this section— include performance rights for copywritten material in your budget.

3. Qualifications

How does this project relate to work you have done in your major thus far? How will this project stretch you academically and creatively? To graduate with Honors, you must take one more class in addition to all of your major requirements. The class must be on a topic that will help you achieve your goals in your Honors project and can be in any field offered at the University. What additional class would you like to take?

4. Outcomes

What do you hope to learn as an artist/scholar from this project?

5. Faculty Participation & Approval

Have you met with your faculty sponsor and do they fully support this proposal? In addition to your faculty sponsor, do you plan to work with any other faculty? If so, which ones and what will their role be in your project? Have they confirmed their participation?
