### 2020 Annual Report

### Advisory Committee Overview

The **Seattle University Criminal Justice Department Advisory Committee** is in its 17<sup>th</sup> year. The advisory committee works with our department through our *Crime & Justice Research Center* to develop collaborative initiatives including research, internships, practicum courses, continuing education, and public events. Our advisory committee is one of the largest and most involved of its kind. Agencies represented on the committee and individual committee members help our students succeed in professional career advancement by connecting them to real-world criminal justice practice. The committee is an integral part of our department and a hallmark of our department's continued success.
